REFERENCE LETTER

Berlin, 31st January, 2018

Dear Sir or Madam,

This is to confirm the cooperation between CORE SE and JCommerce SA in terms of the provision of software testing services since July 2016.

JCommerce specialists are involved in projects for end clients in the field of car insurance and digital identity. The QA engineers deal with automatic and manual testing, for backend, web and mobile technologies. The whole test process, solutions and tools used were introduced by the JCommerce team.

We are highly satisfied with our cooperation, as we have access to top-line professionals who can quickly adapt to the requirements of our systems, agile work methodology, tools, and the specificity of our applications. On behalf of CORE SE, we have no hesitation in recommending JCommerce as a valued and trustworthy business partner not only in the Quality Assurance domain.

Sincerely

Johannes Reinitz
