## REFERENCE LETTER

To whom it may concern,

Bystronic Laser AG hereby confirms its cooperation with JCommerce SA with its registered office in Katowice (40-600), at 227 Tadeusz Kościuszki St. in the scope of software testing services.

Cooperation commenced in June 2017 and has continued uninterrupted until the present day.

The project concerns the BySoft 7 software. The services provided by JCommerce include preparing of a test process, creation of a strategy and approach to application testing, as well as work in the form of manual and automatic tests in the Test Complete tool.

More than 8 months of cooperation with JCommerce has served to confirm our satisfaction with the services provided. JCommerce QA specialists have come to know the specifics of our business and thus have responded effectively to the current challenges. They also share the agile methodology of working which we have adopted, which undoubtedly contributes to the success of our joint projects. In the era of digital transformation, we also very much appreciate access to high-quality IT professionals, fast response times and the scalability of teams.

Sincerely
